At night a banquet was given to the risiting Chiefs and brothers, Colonel Sam Savage acting as toastmaster. He pand a just tribute to the Order, saying that he knew of no institution more earnest and no brotherhood bound by a closer tie; that they were sober men, honest men and debt-paying men. He said he had een the widow buried and the orphan poked after by the noble band, and said the pu hat the highest officer in the land, Presi ent McKinley, belonged to the Order the ladies, and the Colonel knows just pe

ow to do this. Mr. Frank H. Bromley was the Repre-entative from Wyandotte Tribe of this

Mr. Thomas M. Russell, another Wyan dotte, was present as one of the Great Representatives to the Great Council.

FLORA WINDS THE CLOCK.

A Beautiful and Novel Timepiece For California University.

Λ clock garden whose flowers will tell the time of day is being planned by Instructor H. A. Ousterhout of the botanical division of the University of California. He proposes to cultivate such a garden on the University grounds arrang-ing the plants in dial form. The hours and half hours are to be indicated daily buds. The work of producing a clock garden will be a long task, as it has never been attempted in California before and a great deal of experimenting will be should be put around the circle to indicate time. The garden will be the only one of the kind in the United States. "By getting the right varieties of flowers we can mark all the hours and some of the half hours throughout the day," said Mr.
Ousterhout in describing the projected
botanical curiosity. "The flowers would
be arranged like a clock and in the early morning they would begin to bloom, the different varieties at different periods, according to the light and heat. Gradually the opening of the blossoms would extend around the circle until at night the circle would be all in bloom. The first garden of the kind was at Upsala, Sweden, by the botanist Linneas. There is also one in Paris and efforts have been made to cultivate them in the Eastern States, but owing to the elements they have not been successful."

WHAT GAGE SAID.

In 1891 Foretold the Treasury Pridicament of 1893.

ften Quoted Address ortance of Credits-S of Defects of Our C rency System.

The new secretary of the treasury, Lynan J. Gage, is not a novice either in the theory or practice of financial affairs. Long before most bankers and business men were greatly concerned about our national finances he saw danger ahead and prophesied what would—and what did—happen, unless certain and unsound financial system. On February 19, 1891, Mr. Gage read a paper before the Sunset club in Chicago. After explaining how silver and gold money had been evolved "by the free play of human choice, ending in consensus of action, and never by own discussed our own monetary conditions. He pointed out how the United States, by accepting both metals and by allowing its creditors to choose either, kept by accepting both metals and by allowing the credit of the control o ment will be obliged to ett silver or buy gold in excha: With free coinage of silver," "this result will be the sooner Nothing could be clearer of than this. It is precisely

than the pened.

In the autumn of 1894 he took part in an elaborate discussion of the money question at the Commercial club of Chicago. His address at this meeting it often referred to and is now of much miterest, since it contains what he says are still substantially his ideas in rewall to surrency reform. We quote be

the coin contains to cases—at the coin contains to take the things.

"It should here be noted that will our silver dollar is real money its power to exchange for other things is mor to exchange for other things is mor to exchange for other things is more than doubled by another and artificial which gives it power equal to the dollar in gold to pay customs dues. Hat ing an equal value in this direction, the quantity being limited, it has equivalue in all directions, but the different excessor the metallic value of the silve streams the metallic value of the silve

The least four to be classified together as forms of credit.

"Their respective legal relationships for real mone, however, are not alike. The national bank note and the bank check may both be satisfied by the tender of greenbacks or treasury notes, while the last two are redeemed only in coin or in payment of public dues.

"In passing it may be well to note the relative use of these various agentices in the practical operations of comices in the practical operations of comices in the practical operations of commercial the second of the counter of a bank, and the following statement of the amount of cach received by a bank in this city on a recent day will indicate their relative importance in that direction:

"Tercentage of cash to total creditive per cent.
"The lesson to be drawn from the figures is this:

"The lesson to be drawn from the figures is this:
"Much the larger part of all our comercial exchanges is carried, on bank checks or other instruments private cerdit. These instruments a relate to a certain form of money, in the place of which they for the momer stand. If uncertainty intervene as when this related thing—this money what this related thing—this money cater in. The mighty agency of person all credit is shaleen. Commercial echanges fall off, trade languishes ar industry declines.

"The greenback was issued to perform the content of the procedure of the content of the cont

industry declines.

"The greenback was issued to pay debts, not to acque value, or, if value was received, such value was either consumed or converted into value on a value or, such value was either consumed or converted into value not available in the market. The greenback paid bought powder and munitions of war The existence of a debt not paid. It is a lieu upon the future.

"An attoinal bank note, on the consumer of the value which lies somewhere as collaters or its redemption. To transfer such values is the only ordinary and proper cocasion which calls for their issue. The volume in which they will appear marks the rise in prices or an increasing marks the rise in prices or an increasing bank check, they will be in active error when trade and commerce are active. Thus they enjoy the principle of clasticity, wholly lacking in any possible form of direct government issue.

WEEKLY CROP REPORT!

The week just closed was upon the whole very Javaroshle to farming interests, and the general tone of reports received from correspondents indicate that farm work made good progress and that wegetation of all kinds advanced more than dering any preceding week of the season. The week opened with cool and Monday continued warm, and heavy showers were quite general throughout the state. Sow fell quite generally on the state shower whether, which was succeeded by several days with clear skies and rapidly fishing temperature. Sunday and Monday continued warm, and heavy showers were quite general throughout the state. These showers were exceptionally heavy in localities, and gave to some few places a considerable excess of precipitation, but the average amount for the state was slightly less than the normal. From a considerable mumber of stations come complaints of insufficient rain for the needs of crops, but a syet no seriously detrimental effects from this cause have been reported.

While the season is still backward, the outlook is far from being discouraging. A protracted period of warm weather, with occasional showers, would go far toward bringing the season forward to its morthly and the state was slightly less than the variety of the state that the state of the state that the state and the state that the state and the stat

normal stage.
WESTERN SECTION

The average amount of precipitation in this section was slightly less than that received in other portions of the state, though at Paducah, the largest weekly amount for any station, 1.82 inches was reported. All correspondents agree that amount for any station, 1.82 inches was reported. All correspondents agree that crops of all kinds have made great progress during the week. The rain put the soil in fine condition for plowing and planting of corn, and in some counted.

Cascarets acoust \$1.700,000 for Kentucky.

It is rumored that Dr. H. C. Kehoe will burnche the Merchants Hotel at Fien ingsburg, the price paid to be about planting of corn, and in some counted.

Everybody Says So.

Cascarets Candy Cathartic, the most won the work is virtually completed and the control of th soli in fine condition for plowing and planting of corn, and in some counties the work is virtually completed and in the others will be done before the end of the present week. In Warren, Simpson and several adjoining counties corn is up and looking very well. While the condition of wheat is senerally cond through. tion of wheat is generally goed throughout the entire section, in a number of
counties, especially Ballard, Livingstor,
Crittenden and Trigg, it is reported to
have retrograded during the week. It is
heading in Pulton and adjoining counheading in Pulton and adjoining countion of wheat is generally goed through heading in Fulton and adjoining coun ties. Oats are up and generally reporte to be doing nicely. While reports con cerning tobacco plants continue to b

county they are large enough to set ou and ground is being prepared for the and ground is being prepared for the work. Gardees are generally promising though a few correspondents report the early potatoes are not coming up well. Much complisht is made that apples and possebes are dropping from the trees, but egeneral outlook for fruit is good. I large crop of strawberries is ripening is the Westera counties. Potato bugs and cut worms are reported in Crittendee cut worms are reported in Crittendee.

The cool, wet weather which prevailed during the early part of the week greatly retarded all farm work, but the favorable conditions of the last few days have re or corn was pressed to the utmost and s Some corn is up in Marion and counties to the South of it, and is reported to be uneven, but otherwise looks well Wheat is almost unanimously reported to be in the most promising condition, and is about ready to head out in some locali ties. Oats and rye are also growing very nicely. Grasses have made excellen growth and pasturage is generally very good. It is difficult to form an estimate OUR AGENTS.
The following ac authorized Agents for THE PUBLIC LEBORAL IN their respective location and quantity of tobacc plants, so condicting are the reports re garding them, but it can be safely as-serted that the supply will at least be fair. Some few correspondents report plants about ready to set. Gardening all parts of this division of the state, the WEEKLY CROP REPORT!
